

Jezebel (Jess)

The reason I returned, to recollect -
the curry spiced with saffron, Ledb'ry Road,
a complex task to balance tenants load -
perhaps to check my insight, or inspect?
Taste of Windrush generation - respect -
my madness did a petulance disrobe,
but Council would have covered that, well bode,
although a fatal flaw on hostel speck.
I think it was an Adrienne and Clive,
We had a party, welcomed Oxford kith.
The punch they laced with GBH - sharp dive.
Continuity of Care saved my pith.
She left her greatest skill in her last will
She gifted attitudn'l shares that kill.
